

2021 ISSF World Championships Senior and or Junior

Due to various reasons: including the continuation of COVID-19, date change for the Tokyo Olympics and insufficient information from ISSF. NZSF does not know what (if any) ISSF World Championships will be conducted during 2021.

As NZSF has very limited information and time is running short for a Nomination/Selection process, we suggest all New Zealand athletes that have aspirations towards this event, attend the usual designated matches from 1st August 2020 through 2021, then these scores can then be used for qualifying and MQS's if required.

The usual events NZSF would take into consideration for these events are from 1st August 2020 to 31st March 2021.

For General information and MQS requirements on ISSF World Championships, please view the NZSF General Selection Criteria: <http://www.nzshootingfed.org.nz/events.php>

The usual events NZSF would take into consideration for these events are from 1st August 2020 to 31st March 2021.

NZSF will advertise a criteria for the event once we receive enough information to do so!

10th July 2020
