

2022 Commonwealth Archery and Shooting Championships – INDIA

Proposed Date and Venue
January 2022
Chandigarh – Northern Indian States of Punjab and Haryana

It is anticipated, NZSF will be required to submit a Qualifying and or Selection Criteria for the above event but due to the continuation of COVID-19 around the World, we do not have enough information to do so at this point.

Therefore, in the interim we will list the information we have and the likely NZ events that will be taken into consideration for qualifying scores and MQS's purposes.

Proposed date:	January 2022
Venue:	Chandigarh – Northern Indian States of Punjab and Haryana
Events in Chandigarh:	Unknown - TBA

As NZSF has very limited information and time is running short for a Nomination/Selection process, we suggest all New Zealand athletes that have aspirations towards this event, attend the usual designated matches from 1st August 2020 through 2021, these scores can then be used for qualifying and MQS's as required.

NZSF will advertise a criteria for the event once we receive enough information to do so!

10th July 2020
